SCALE 1:7500 CONTOURS 5M

ISSUES

- Need to meet the needs/expectations of the competitors.
- JK a holiday event, or the British Open Championships?
- Course combinations for more physical areas?
- Small classes with a wide ability range.
- Unrealistic expectations of competitors in terms of their own fitness and technical ability?

SCALE 1:7500 CONTOURS 5M

Possible Solutions?

- Look again at course combinations
 - Different combinations for more physical/technical areas.
 - Rather than age group classes for older Vets introduce colour coded type courses to meet a range of abilities.
 - Consider the use of remote, rather than assembly area finishes.
 - Make it easier and less expensive to change entries.
